Report of Enhancement or Upgrade of Sensitivity of Technology or Capability (Sec. 36(b)(5)(A), AECA)

(i) Purchaser: Republic of Korea.

(ii) Sec. 36(b)(1), AECA Transmittal No.: 16-83; Date: January 31, 2017; Military Department: Air Force.

(iii) Description: On January 31, 2017, Congress was notified by Congressional certification transmittal number 16-83, of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of eighty-nine (89) AGM-65G-2 Maverick missiles, missile containers and other related elements of support. The total estimated program cost was \$70 million. Major Defense Equipment (MDE) constituted \$66 million of this total.

This transmittal reports the inclusion of an additional one (1) AGM-65G-2 Maverick missile (MDE). The estimated total value of the added MDE item is \$0.67 million, resulting in a new MDE total of \$66.67 million. These costs will not increase the total case value which will remain \$70 million.

(iv) Significance: The proposed sale will increase the Republic of Korea's capability to participate in regional security operations and improves its national security posture.

(v) Justification: This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a Major Non-NATO Ally that is a force for political stability and economic progress in the Indo-Pacific region.

(vii) Date Report Delivered to Congress: October 5, 2022.
